PCP Advanced Course

From October 2008

The PCPA Advanced course in Personal Construct Psychotherapy will be run in Coventry from the 30th October 2008. This is a four year part time, UKCP accredited course, which requires prior completion of the PCPA foundation course. The course will take place on Thursday afternoons. There will be the possibility of having a clinical placement which could be used to offset a major part of the course fees.

The course will be run by the Coventry PCP group as an integral part of the courses provided by the Personal Construct Psychology Association (PCPA). Unlike the London Advanced Course (which is run on a two day modular system) the Coventry course will be run on a weekly half day basis, in school term time. Course Tutors will include Heather Moran, Peter Cummins, Sally Robbins, Diane Allen and Grant Weselby.
